## Deeper Connection #7 – Imagination

The world is a much richer place with imagination. Imagination lends meaning to the physical world, adding a layer of understanding and intrigue. It brings mystery and enchantment, as illustrated by this image, transforming a common puddle to a one-eyed creature of the deep, locked in the ice.

Engage your mind's eye to see things from a different perspective. See the magic in the world, dreaming like a child on its back staring at the moving clouds.

Image: Frozen puddle, Lake District.

We facilitate deeper, transcendent experiences of nature, helping people to find purpose, meaning, wholeness and delight. We invite you to take this card when you're next out in nature, to help you experience nature more fully. <https://beyondtheview.org.uk>
